Mr. Andrew Hursh  
Best Pool Systems

Andrew,

Aquacal is a manufacturer of both air source and water source heat pumps specifically designed for the Swimming Pool and Spa industry. Our products are designed to take full advantage of our existing resources, air and water, and convert them to heating energy at a higher efficiency and lower cost than the alternative, fossil fuels.

We would like to recognize you for your contribution to an elite group that designs, builds and services both fitness, and hotel facilities. With each project your company engineers, the design projects consistency in both energy efficiency and operational costs to your clients.

I applaud your company for looking at the ultimate solutions when designing, or replacing other means of equipment available in our industry. When a facility contracts with Best Pool Systems services, they can be assured they will receive the most energy efficient, cost effective and environmentally clean products our industry has to offer.

As technology leads us to even more energy efficient means of Pool and Spa heating, we look forward to Best Pool Systems utilizing our advances.

Sincerely,

John Wagner  
Midwest Sales Manager
