

May 8, 2019

To Whom it May Concern,

This letter is one of strong support for Cory Lenzmeier and Best Pools. I have known and worked with Cory since 2011 and found him to be a professional, trustworthy and honorable man that works hard for his family and for his business associates.

Best Pools has been a factory authorized and trained distributor for ProMinent Fluid Controls for eight years and continually impresses us with their dedication, professionalism and capabilities. Nothing exemplifies this more than a massive project they took on in late Q3 and Q4 of 2018. Best Pools purchased more than 300 chemical controllers from us in September 2018 and installed and commissioned them at facilities throughout the USA in only three months-time. We believe this scope and scale of a project completed in this amount of time is unheard of in the Aquatics industry and truly represents the expertise and professionalism of Cory and the Best Pools team.

In short, I would not hesitate for a second to engage in another project with Cory nor fail to recommend Best Pools to another company or facility for any of their Aquatics needs. Please call me if you have any questions or need additional information.

Sincerely,

Kind Regards,

Bob Kappel
